

EMMANUEL JAMES

FRONTEND DEVELOPER

Ajah, Lagos, Nigeria | 📞 08141713797 | ✉️ siremmy9@gmail.com | 🌐 [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with professional experience building responsive, user-friendly web applications using HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, and RESTful APIs. Experienced in developing reusable UI components, integrating APIs, debugging and optimizing applications, and collaborating with senior developers and designers. Strong problem-solving skills with a focus on clean, maintainable, accessible, and performant code.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, RESTful APIs

Programming & Tools: TypeScript, Git, GitHub, Debugging, Performance Optimization, Cross-Browser Compatibility

Backend: Node.js, RESTful API Development

Soft Skills: Problem-Solving, Team Collaboration, Technical Communication, Adaptability

PROFESSIONAL EXPERIENCE

Full Stack Developer | Sowftech Digital Innovation — Lagos, Nigeria 2023 – Present

- Develop and maintain responsive web interfaces using HTML5, CSS3, Vanilla JavaScript, React.js, and TypeScript.
- Build reusable React functional components using modern React hooks and component-based development practices.
- Implement responsive, accessible, and user-friendly interfaces based on design specifications and UX guidelines.
- Integrate frontend applications with RESTful APIs and manage asynchronous data fetching and application state.
- Use TypeScript to improve type safety, code reliability, maintainability, and developer productivity.
- Collaborate with senior developers and designers to implement new UI features and improve existing applications.
- Debug, refactor, and optimize frontend code to improve performance, maintainability, and cross-browser compatibility.
- Develop server-side logic and API endpoints using Node.js to support frontend application functionality.

Industrial Trainee | Nigerian Breweries PLC — Imagbon-Ijebu, Nigeria 2025 – 2026

- Supported production processes and Utilities operations within the industrial environment.
- Gained practical exposure to factory workflows, operational procedures, teamwork, and engineering practices.

EDUCATION

B.Eng. Mechanical Engineering — Kebbi State University of Science and Technology *Currently Studying*

Secondary School Certificate Examination — Command Day Secondary School, Ijebu-Ode 2013 - 2019

Computer Operations and Maintenance — National Directorate of Employment 2020

SELECTED PROJECT

SwiftTrack — Waybill & Freight Management System | HTML5, CSS3, JavaScript

- Built a responsive web application for creating, managing, and tracking waybills and deliveries across Nigeria.
- Implemented responsive navigation, freight management interfaces, audit forms, and user-focused tracking workflows.
- Applied modern frontend practices including responsive design, reusable UI patterns, form handling, and client-side JavaScript.

ADDITIONAL STRENGTHS

- Strong foundation in modern frontend development and component-based UI architecture.
- Comfortable learning new technologies and working within collaborative software development teams.
- Focused on writing clean, maintainable code and delivering practical user-centered solutions.
