PROFESSIONAL SUMMARY

Results-driven Web Developer with over 3 years of experience in building responsive, user-friendly interfaces. Proficient in modern frontend and backend technologies including HTML5, CSS3, JavaScript (ES6+), React.js, and Node.js. Demonstrated track record at Sowftech Digital Innovation in developing reusable UI components and integrating RESTful APIs to deliver high-quality web applications.

CORE SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React.js
- Backend & Database: Node.js, RESTful API Integration
- Tools: Version Control (Git), TypeScript, Debugging & Optimization
- Soft Skills: Problem-solving, Team Collaboration, Technical Communication

WORK EXPERIENCE

Full Stack Developer — Sowftech Digital Innovation, Lagos, Nigeria (2023 – Present)

- Contribute to front-end development using HTML, CSS, Vanilla JavaScript, React, and TypeScript.
- Build and maintain reusable UI components using React functional components and modern hooks.
- Implement responsive and user-friendly interfaces based on design specifications and UX guidelines.
- Integrate front-end components with RESTful APIs and handle asynchronous data fetching.
- Use TypeScript to improve code reliability, type safety, and maintainability.
- Collaborate with senior developers and designers to implement new UI features and enhance existing ones.
- Debug, refactor, and optimize front-end code for better performance and cross-browser compatibility.
- Developed server-side logic and API endpoints using Node.js to support frontend functionalities.

Industrial Trainee — Nigerian Breweries PLC, Imagbon-Ijebu (2025 – 2026)

- Supported production processes and Utilities operations.
- Learned factory workflow and Engineering practices.
